

**Statistical data on the impact on resources of handling FOI requests in central Government
Departments
[November 2006]**

NOTES

The "Requests" sheet contains data on the requests sampled

The "Contributions" sheet contains data on the time spent by officials working on the requests

The "Request URN" column (URN = Unique Reference Number) is common to both sheets and is used to link them together. A single request, and all officials' work contributions to it, are identified through use of the request URN across both sheets.

Several data fields have their values recorded in a numeric code. These codes are explained in the "LookUp
